

Choose Your Destiny!
LIMS Implementation/Validation Specialists and Project Managers
– *Become Cross-trained for Challenge, Variety and Job Security* -

CSols, Inc (www.csolsinc.com) is an internationally acclaimed laboratory informatics company, which serves the pharmaceutical, biotech, biofuels and chemical industries. Due to planned expansion, CSols is adding several LIMS Implementation and Validation Specialists and 2 Project Managers to our staff. Individuals will work on a number of large and mid-sized projects, both regional and global, and must experienced in one or more the major commercial LIMS Systems: LabWare LIMS, StarLIMS, SampleManager, SQL*LIMS, Sapphire, etc. Selected candidates will be taught to become active listeners; to cast business and technology vision, and creatively develop solutions for our clients- major Pharmaceutical and Biotech Companies.

Qualifications for individuals include:

- 2-10 years of LIMS Implementation and/or Validation Experience (preferably in Pharmaceutical Settings)
- Experience in full life cycle activities: Project/Program Management; Workflow/Requirements Analysis, Design, Development, Configuration, Documentation, etc.
- For Developers: .Net, Java, Oracle, SQL Server, ASP
- For Project Managers: experience on large LIMS Projects
- Domain Expertise in Pharmaceutical or Biotech R&D or Quality Control, a plus
- A Self-Starter who can work both independently and with Technical Teams

Benefits/Rewards for the chosen individuals include:

- Opportunity to be Key Contributor in a dynamic, fun and flexible company which rewards creativity
- Competitive compensation
- Benefits package including medical and dental insurance, vacation, etc.

For consideration for this position, please submit resume to joan.castle@csolsinc.com and include the job title in the subject line.
